

OLIVER WU

UX/PRODUCT DESIGNER

I am a UX & Interaction Designer with an international perspective, working across visual, systemic, audio, narrative, and multimodal design. With experience in game design and large-scale digital platforms, I understand complex systems and diverse user needs, while actively exploring AI-enhanced workflows.

EXPERIENCES

UX DESIGNER — Tencent (Visual & Audio on select projects)

2024-12 ~ Present

Tencent Cloud Gaming — In-Car HMI Platform

Designed the second-generation in-car cloud gaming experience, integrating controller, touch, voice and keyboard inputs, and key commerce features; contributed to production delivery with Huawei Qiankun.

League of Legends China — Live Ops & Mini-games

Designed core gameplay flows, narrative UX and interaction systems for live-ops experiences, with additional ownership of UI motion, high-fidelity prototypes and audio design.

T-Game (Confidential, with Riot Games)

Designed core gameplay interactions and UI architecture, and built interactive prototypes for design validation and publishing review, with additional in-game audio design.

App Marketplace — Multi-brand, Multi-device Platform

Designed and adapted the marketplace experience across mobile, tablet and handheld devices for partners including ASUS, Lenovo and nubia.

Animula Nook — UGC Hub

Designed the UGC hub experience around content discovery, category filtering, and game entry, with supporting mini-game and live-ops flows.

Dungeon & Fighter (DNF) — Summer Event

Designed interaction flows and key gameplay states for two event mini-games within the summer campaign.

GTS — 3D Social Hub Mini-games

Owned UX, visual design, UI motion and high-fidelity prototyping for mini-games embedded in a 3D social hub, launched across Southeast Asia, the Middle East and Eastern Europe.

Other Live Ops & Mini-game Experiences

Contributed to onboarding, seasonal events and lightweight game experiences across Tencent Charity, QQ Farm, Honor of Kings and other titles.

Interaction Designer Intern — Tencent

2024-05 ~ 2024-08

Tencent Cloud Gaming — In-Car HMI Platform

Contributed to cross-platform HMI architecture, performance adaptation and controller usability testing across automotive OS and web environments, supporting partner deliveries for Huawei, BMW and Dongfeng Nissan.
